The following pages have been put together to make it easier for you, as a consultant, to understand how to read and produce the Open 360° Feedback Assessment.

Another 360° Feedback resource which may help you with your project is a Manual explaining how to set up an Open 360°.

## 1. Open 360° Feedback Reading Instructions

### 1.1. Scoring Interpretation

The Open 360° Feedback displays results using numbers and traffic light colours.

- **Green** indicates that the person assessed has scored highly in the measured behavioural competency.  
The **top 25%** of the scale.
- **Yellow** indicates there is some room for improvement.  
**Between 25% - 75%** of the scale.
- **Red** indicates a definite area to improve.  
The **bottom 25%** of the scale.

	High Score
	Secondary Improvement Area
	Definite Improvement Area

## 1.2. Open Scale vs Likert Scale Results

- An **Open Scale** will display scores between the ranges of 1 to 5.
- Respondents may view this scale more positively than the Likert Scale.
- The closer the scores are to 5, the more favourable the outcome.

Question:	Self	Peers	Managers	Direct Reports	Total
1. Proactively deals with problems openly and honestly	5.00	4.00	4.00	5.00	4.33
2. Shares feelings, communicates appropriately and constructively	4.00	2.00	3.00	5.00	3.33
3. Stays focused on the situation, issue or behaviour not on personalities	3.00	3.00	4.00	4.00	3.67
4. Responsibly manages the resources entrusted to them	2.00	3.00	2.00	4.00	3.00

10. Uses their time efficiently	5.00	3.00	4.00	3.00	3.33
Total	3.50	3.20	3.20	3.90	3.43
Standard Deviation		0.79	0.79	0.88	0.86

- A **Likert Measurement** scale will display scores between the ranges of -2 to +2 .
- This scale makes it easier to identify development areas.
- The closer the scores are to +2, the more favourable the outcome.

#### Self Column:

- This is the how the assessed person scored themselves.

#### Response Groups Columns:

- These show the average scores given by each “Response Group”.
- Response Groups can be personalised according to your unique needs. i.e. Direct Reports, Peers, Managers.

#### Totals Column:

- The totals column shows the average scores given by the combined “**Response Groups**” for that group of questions.  
Note that it **excludes** the scores in the “Self” column.

#### Totals Row:

- These totals indicate the overall average scores given by each Response Group.

#### **Project Totals:**

- These show the combined average scores of all the people who were assessed in the project. (The average score **excludes** their Self Scores).

### **1.4. Standard Deviation**

The **Standard deviation** is a number used to tell how measurements for a group are spread out from the average (mean) or expected value.

- A **low standard deviation** means that most of the numbers are very close to the average.
- A **high standard deviation** indicates that the responses varied widely from the average, i.e. there were outlying responses.

### **1.5. Graphs Available**

- Graphs can be generated for each report. The graphs available are:

## Basic Bar

## Basic Column

## Spider Web

## Line Chart

## 2. Results displayed by Ranking

(Note: Open-Ended Questions are not displayed in the Ranking reports)

These reports rank the questions in order from the highest scoring to the lowest scoring competencies in each question group.
