

# FinxS Support Centre

## FinxS Support Centre

The FinxS Support Centre provides you with numerous guided tours.

Once you begin a tour, a series of pop-ups will guide you through the steps in your selected tour, enabling you to make the change or add the feature you want as you go.

To access the FinxS Support Centre and view the tours, hover over the 'Settings' cog in the top right-hand corner of the FinxS dashboard and click 'Support Centre'. You can start these tutorials at any time, cancel or re-do them at any point.
