# Cognitive Ability I Chart types to use in Cognitive results
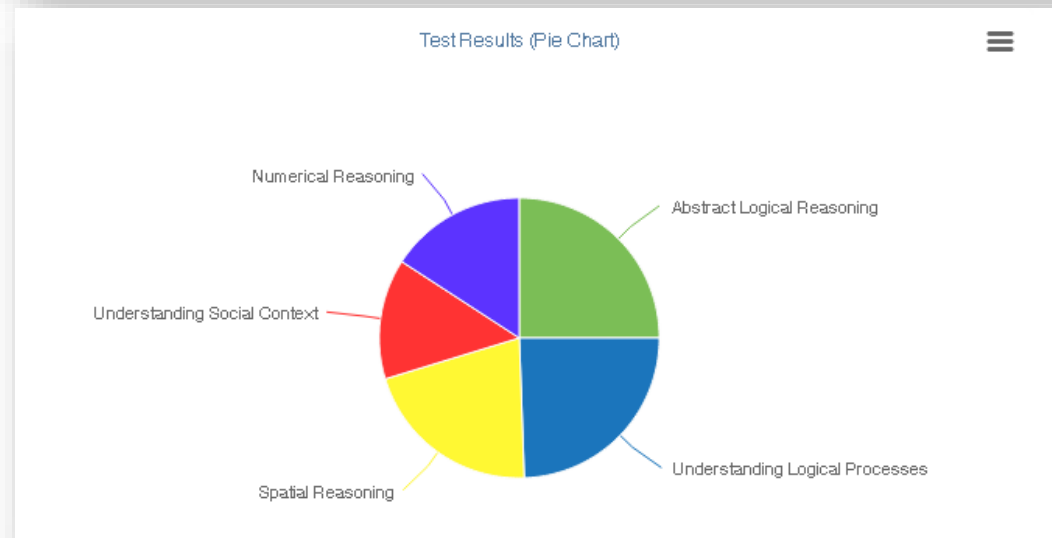

1. Chart Types in Open Preview

There are various chart types that can be used to view and print the results of a Cognitive Test in Open Preview. Simply click on "Chart" (upper right-hand corner of Open Preview screen) and select from the following:
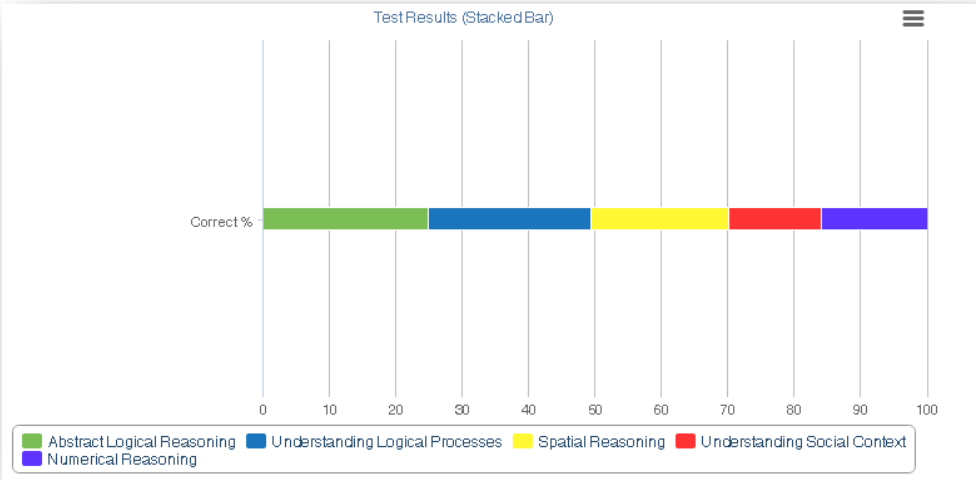

Basic Bar
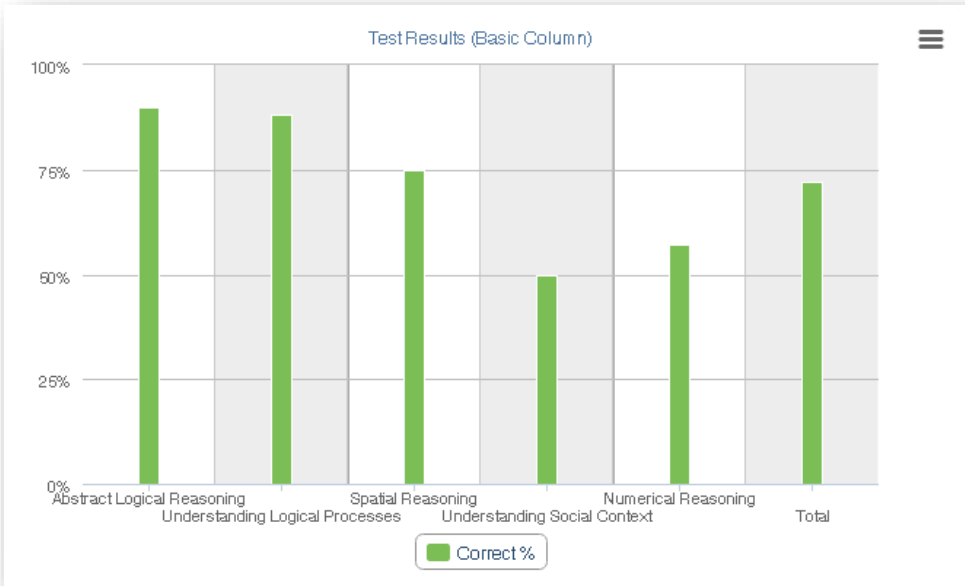

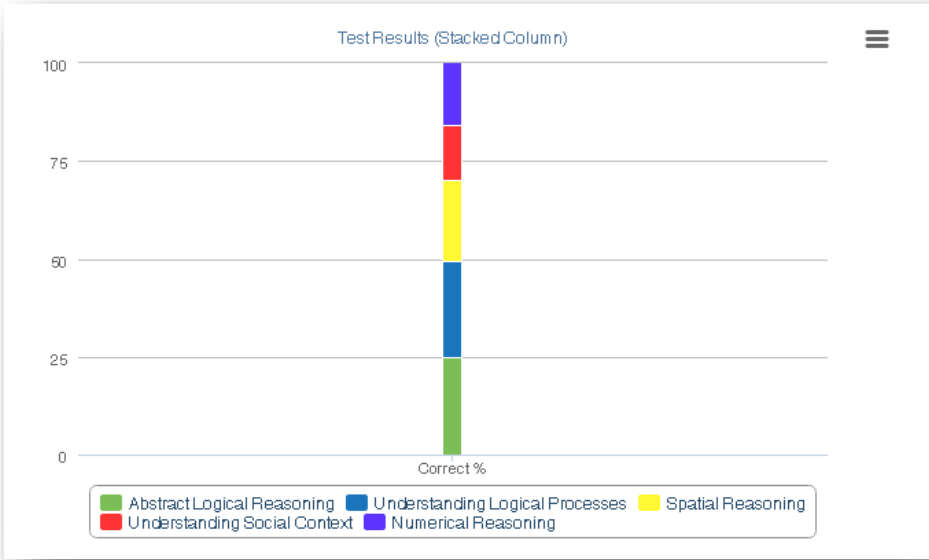

Test Results (Basic Bar)

	Correct %
Abstract Logical Reasoning	90%
Understanding Logical Processes	88%
Spatial Reasoning	75%
Understanding Social Context	50%
Numerical Reasoning	57%
Total	72%

Pie Chart

Test Results (Pie Chart)

Numerical Reasoning
Abstract Logical Reasoning
Understanding Social Context
Spatial Reasoning
Understanding Logical Processes
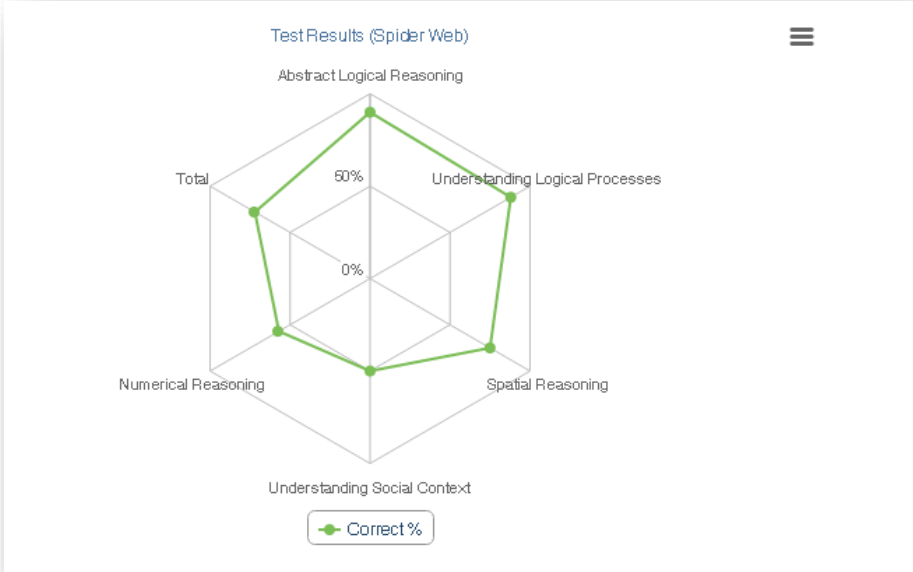

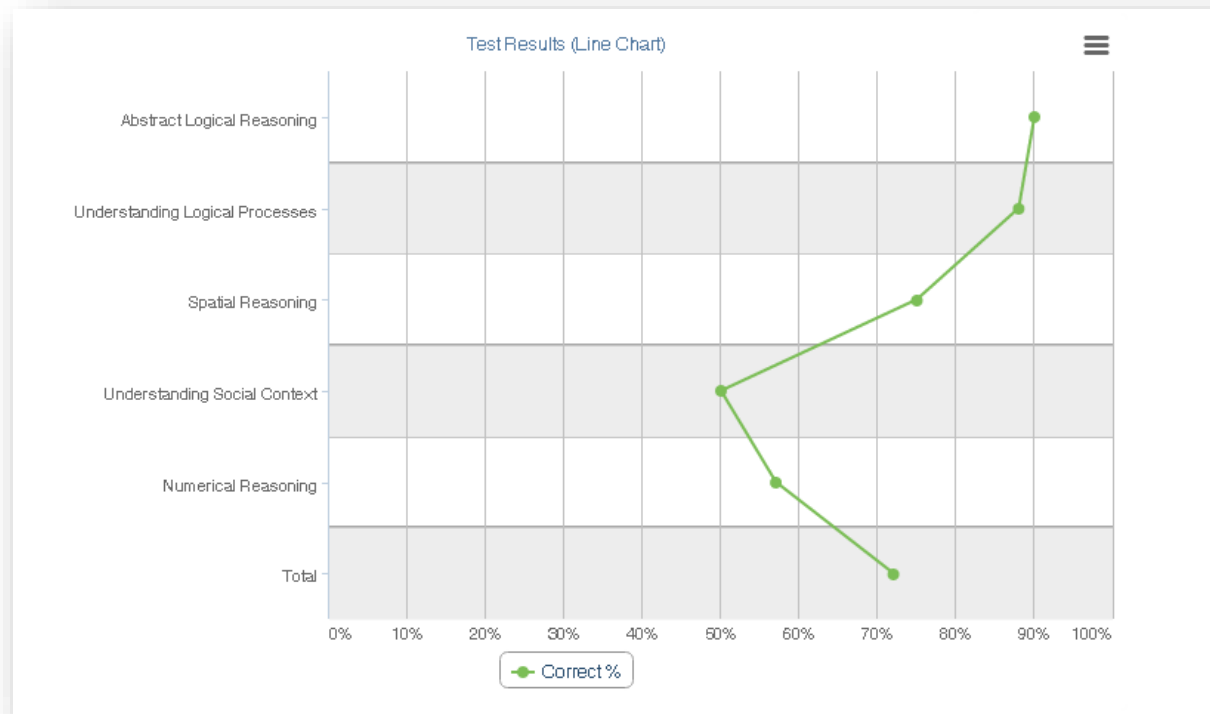

Stacked Bar

Basic Column

Stacked Column

Spider Web

Line Chart

Note: Multiple people's results can be viewed simultaneously using these charts.

The results of individual tests can be viewed using these charts. You might choose to view only Numerical Reasoning, for instance.
