

# FinxS® Management Report (Collaborating with **FinxS®** Others)

This assessment is based on the responses given in the Extended DISC® Behavioural Assessment Questionnaire. This assessment should not be the sole criterion for making decisions about this person. The purpose of this assessment is to provide supporting information for the respondent in self-development.

## Collaborating with Others

Working co-operatively with others, being part of a team, working together as opposed to working separately or competitively. Being genuine and active as a member of a group rather than as a leader.

Competence Match Percentage: 60%

Person score   █ Expectation

Identify your strengths and development areas for this management competence.
