

# **Surveys I Viewing Multiple Survey Results Online**

It is possible to compare results of different surveys in one report as long as the “Child Questionnaire” used was the same.

- In your FinxS account, go to the “**Database**” tab and select “**Surveys**”.
- In the left-hand column, click on the Survey project you wish to view.
- Click the “**Generate report**” button near the top.
- Follow the instructions in [Section 11](#) to view the results online.  
Click “Projects” towards the top right.

Then select the project you want to compare the current results to:
